

Using TVJab in the Culpeper Language Center

Launch and Sign On:

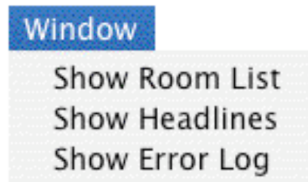

1. Open TVJab by going to the Apple menu then selecting Applications > TVJab Chat > TVJab
2. Click the small disclose arrow under the light bulb and enter your username and password.
3. Click Connect.

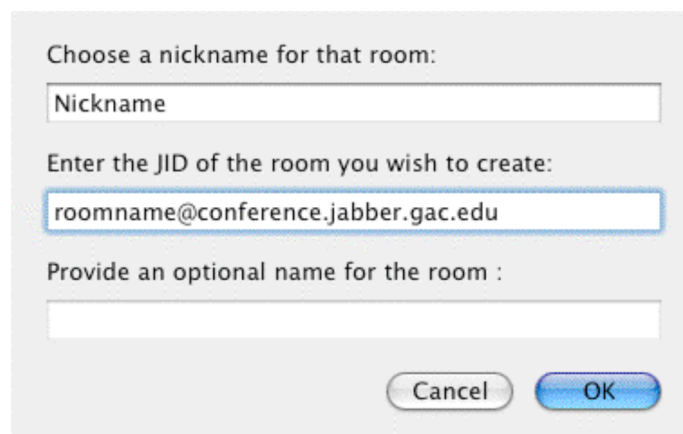

The 'New connection' dialog box in TVJab. It features a light bulb icon with a small arrow pointing down. The fields include: Profile (empty), Remove button, Start invisible checkbox, Server (jabber.gac.edu), Username (username), Password (empty), Save password checkbox, Resource (TVJab), Create a new account checkbox, and a Connect button.

To join an existing chatroom:

1. From the Window menu select Show Rooms List

2. In the Chat Rooms window click the *New Room* button.
3. In the Nickname field enter your first name.

The 'Choose a nickname for that room' dialog box. It contains three input fields: Nickname, Enter the JID of the room you wish to create: (roomname@conference.jabber.gac.edu), and Provide an optional name for the room:. At the bottom are Cancel and OK buttons.

4. In the JID field enter the room name with no spaces or special characters followed by @conference.jabber.gac.edu
5. Click OK
